

Helium Leak Detector

Versatile... Wide Lineup & Accessories for Broad Applications

- Portable Design for Field Service (A-212 / 222)
- High Power Pumping System
- High Sensitivity on Casters
 - World's Top Level 10^{-12} Pa m³/sec (A-222)
- Sniffer Dedicated Design (A-230)
- High Speed Testing
 - Just 6 second Test Cycle (A-240M / 250M)
- Fast Response Time & Long Term Stability
 - MCP Enhanced 180° Magnetic Deflection Mass Spectrometer

HELiEN®

- Easy & Simple Operation
 - Automatic Measurement & Calibration

- Easy & Simple Operation

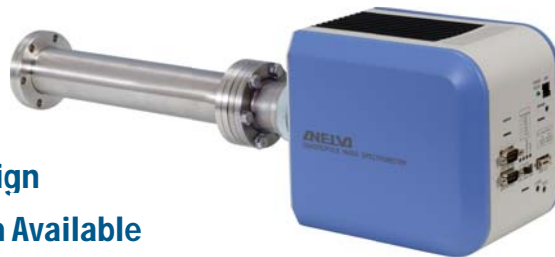

- Versatile Functions & Accessories
 - External I/O (Analog & Serial)
 - PC Communication Software (Optional)
 - Maintenance Kit, External Pumping System, Standard Helium Leak Device, and etc...

Residual Gas Analyzer

Quadrupole Mass Spectrometer & QUADVISION 2 Software

- All-in-one TRANSDUCER RGA
- High Sensitivity
 - Dynamic Range > 7 orders
- UHV Process Applicable Design
- Differential Pumping System Available
- High-mass 400 amu. type is available

Model: M-201 QA-TDM / M-101QA-TDF

QUADVISION 2 Control Software

- Monitoring & Data Processing for up to 8 RGA Units
- 16 Gases - Simultaneous Monitoring
 - Ion Peak Height & Trend Tracking on Screen
- Total & Partial Pressure Monitoring (Peak & Trend)
- Data Logging into Spread sheet / Data base
